DEPARTMENT OF PHYSIOLOGICAL CHEMISTRY  
725 N. WOLFE STREET

November 13, 1962

Dear Josh:

It was good to see you in your native habitat last week, but I still wish we had a little more time to talk membranes. However, I had a good chat with Dr. Shneour. He has a very interesting idea on protection against oxygen which fits in very well with some of our own observations. I hope we can discuss this further another time. By rights, I should not go traveling anymore for some time, but if I do come out in January for that Cell Organization meeting, I hope I may stop in to see you before or after.

Enclosed is a check for your expenses on the Herter Lectures.

With best greetings,

Sincerely yours,

*Al*
